

DE4040F4

Designed, engineered, and manufactured in our facility located in Le Center, Minnesota, equipped with modern engineering, fabrication and assembly capabilities.

Full Load Tested

Every generator is 100% load tested in-house.

Key Start

The key start assembly can easily be rotated to three sides of the unit. Allowing the unit to be installed in a convenient position according to your specs.

FPT Tier IV Engine

We think a little more engine is key for long life and quick responses to load changes. There isn't Urea or a need to shutdown for regens with this FPT F5 series engine with DOC-PMCAT.
